Tell Us How To Ship

Whether by express, motor truck or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and method to use. It is mutually agreed that whether you name the route or you leave it to our own selection that we will not in any way be responsible for time or condition of delivery and that our responsibility ceases upon our delivery to the transportation company.

ROOTED CUTTINGS

READY ABOUT JUNE FIRST

After another season's experience we are again offering a collection of rooted cuttings. They have proved much more popular than we expected and we believe they have given even better results than we anticipated, as we have had very few complaints of failure to grow. The success, we believe, was due a good bit to the following words of caution.

DO NOT ORDER BEFORE READING THIS

You cannot treat most of these cuttings just any old way and get a stand. They will most usually die if you do. But, if you are willing to coddle them a little you should get a good stand. We will send you the same kind of stock we use and we most always get a good stand, we lose very few. We have our ground in a good mellow condition, cover them with a lath shade (that is plastering lath spaced about the width of a lath apart and raised about 15 to 18 inches above the ground) as soon as planted and keep them from drying out by overhead irrigation. Any system of shading and watering will do, if it is properly attended to. **If you will take care of the plants we will be glad to have your order, but if you cannot do this we had rather you would not send it to us.** If they are not properly taken care of you will probably have a great loss and we will most likely get the blame. Rooted cuttings are all right if handled right but they are no good if not. **So if you are not willing to take all the responsibility do not send us your order.**

These cuttings are in coldframes outside and in greenhouse beds. The Azaleas are now rooted and can be shipped at any time when weather permits. Some of the other stock is now rooted and some is not. If you want stock before about June first, send your order and we will send what is ready and the balance when it is ready or hold it until you do want it. We are not propagating nearly as much this season as usually on account of labor shortage. I believe this is general.

A Real American Holly Bargain

We have a block of American Holly (Ilex Opaca) planted 3½ feet apart each way running mostly 3 to 4 feet high, transplanted two years ago and we want to take up every second row to thin them out. We will sell them at a real bargain to anyone who can come in a truck and haul them away. They will be sold so cheap we cannot afford the time to box them as scarce as labor is this season, but if you want a carload we will pack them in a car for you. Here's a bargain if you can use them. Come see them.

You Should Grow

The Rare Franklinia

(FRANKLINIA ALATAMAHA—GORDONIA ALATAMAHA)

One Of Our Best Sellers

This exquisite fall flowering tree was brought in 1777 from the banks of the Alatamaha River in Georgia to Bartram's garden at Philadelphia. John Bartram recognizing its extraordinary beauty and value, named it in honor of his life-long friend, Benjamin Franklin.

The original grove of Franklin trees was again visited in 1790, but from that day to this no one has seen these trees growing in the wild though many expeditions have searched the banks of the Alatamaha for it.

Franklin's tree is beautiful in detail and marvelous in landscape effect besides blooming at a season when few shrubs or trees are in flower.

The slender trunk and graceful branches are so muscular and sinewy in appearance that one almost expects motion as under a greyhound's skin. The bark is smooth and dark gray, with wavering lengthwise markings of lighter color.

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its firm spherical form. From its shelter emerge four other petals, satiny, snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. There is a constant succession of bloom till hard frost. We frequently get the unusual effect of a tree clad in crimson autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than three or four feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens thirty feet high are known. It develops naturally with several trunks, but may easily be trained to a single trunk by removing sprouts which start from the base.

Franklinia prefers full sun and has proven entirely hardy about New York and hardy in favorable locations about Boston. It is an especially desirable tree for the small intimate garden, loved and lived in. It is a charming lawn tree and the grass may be allowed to grow closely about its trunk. It also thrives when planted by pools, lakes and streams. Its light elegance of form and color contrasts exquisitely with the dark green of conifers.

We have, for the first time, a few hundred seedlings of the Franklinia, 6 to 9 inches, at $15.00 per hundred. All our others are grown from cuttings. Mention seedlings when ordering.

Put a few of these Franklinias in your display garden so your customers may see them in bloom. You will be surprised at the extra sales you will make. The leading garden magazines have featured them in their columns.

As Good As Can Be Grown

We are exerting every effort to produce the very best stock that can be grown, and in our thirty-six years' experience we believe we have never offered bigger values than we are offering this season. Even with the short supply of Lining-Out stock we have kept our prices at a low level. We feel sure you will be more than pleased with the stock we send you if you give us your order.

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

Blueberries

These blueberry plants are a source of superlatively fine fruit, but also are ornamental shrubs of rare beauty. They may well be used in association with their close relatives, laurel and rhododendron. in pleasant contrast to the rich, evergreen masses of the latter, blueberries give lightness, grace and color.

In spring, the dainty new leaves of blueberries with their pinky, bronze tone are very lovely. Even more charming are the carmine-tipped buds and myriads of waxy, white flower bells. The berries, at first green flushed with pink on the sunny side, then ripening to a lovely soft blue, are exceedingly beautiful till past midsummer. To no foliage does autumn bring a more glorious and lasting crimson. When the gorgeous leaves drop there remains all winter bright red twigs, knobby with the fat buds enfolding the promise of next spring's flowers.

Prices of Blueberry Plants	Each	10	100
6 to 12 in., 2 yr.	$0.35	$2.75	$22.00
12 to 18 in., 3 yr.	.50	4.00	30.00
18 to 24 in., 4 yr.	.60	5.50	45.00

There has developed an enormous demand for these plants, both for fruit and ornamental purposes. If you have not been getting some of this trade you are missing some good profits. They are easy to grow and handle. Put in a small stock and let us supply you; we will send to you or direct to your customers under your tags.

Description of Varieties

BURLINGTON. This is the newest variety named. Berries are excellent flavor, very large size and quite uniform. An unusually good keeper. Bush is medium high and crops heavily, and later in the season than other late varieties. **Add 25% to above prices for plants of this variety.**

CABOT. The earliest variety. Plants seldom exceed three feet in height and make a broad low bush. The color of the new growth in winter is a light red over olive. The large berries have a delicious sub-acid flavor.

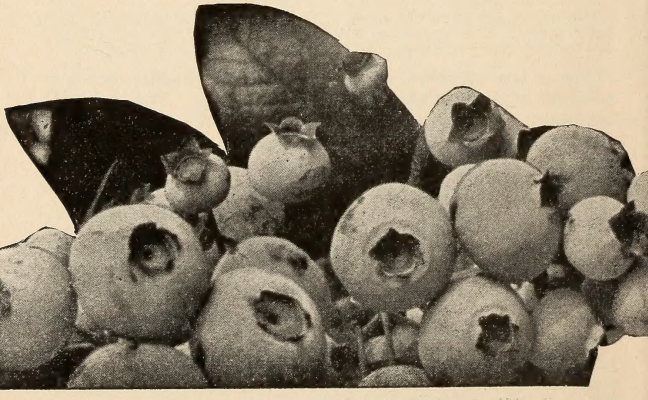
CONCORD. The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are fine in flavor and appearance.

JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are among the very largest, light blue and ripen about the same time as Rubel.

RANCOCAS. The bush of slender, vigorous, upright habit rarely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.

RUBEL. A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July.

There is a big market for these delicious Blueberries; they grow in big clusters, producing 3000 to 5000 quarts per acre. Special prices quoted on thousand lots or more.



You May Be Sorry

If you do not plant Lining-Out stock this season. There is being a lot of large specimen stock used for camouflage purposes as well as for other plantings. This will likely clean up most all the surplus of large stock available in the country; scarcity of labor will curtail the usual planting of Lining-Out stock and as a result there will probably be less good landscape material at the end of this war than there was at the end of the other war. We do not advise you to plant stock unless you think you can take care of it, but if you can care for it until it gets landscape size we sincerely believe it will be real good property. We believe there is less good planting material in nurseries today than there has been in several years and while none of us know what conditions will be at the end of this war, many predictions are that business will be good for a time at least. This means a demand for good nursery stock.

If you think this will be the case, and are going to line-out some stock this season we will certainly appreciate your orders, and assure you we will do the very best we can to furnish stock that will give you a good start on having some nice plants at selling time.

Bargains In American Holly

We have a block of American Holly (Ilex Opaca) planted 3½ feet apart each way running mostly 3 to 4 feet high, transplanted two years ago and we want to take up every second row to thin them out. We will sell them at a **real bargain** to anyone who can come in a truck and haul them away. They will be sold so cheap we cannot afford the time to box them as scarce as labor is this season but if you want a carload we will pack them in a car for you. Here's a bargain if you can use them. Come see them.

Descriptive Catalog

We have a 72 page descriptive catalog which lists and describes most of the items offered in this Wholesale Price List and will gladly send you a copy. This may possibly be of some help to you as it illustrates in color many of the newer and best selling varieties—the kind you can make money in handling. A copy is yours or the asking.

Shipping Tags

Made of good quality, tough, waterproof stock. Size 3⅛X6¼ inches. The standard size tag most used by nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices:

500	1,000	2,000	5,000	10,000
$3.50	$5.50	$10.50	$24.50	$45.00

If colored tags are wanted add $1.00 per thousand to the above prices. For 2 colors of ink add $1.50 per thousand.

We can furnish any other size or quality tag at very reasonable prices. Ask for quotations.

Paper Labels for Typewriter Use

We can furnish a tough paper label, slotted in one end, one half inch wide, 7¼ inches long, twelve labels to a sheet, cut so they will easily tear apart. Convenient, easy to use and low in price. Price, 1,000 for $1.00; 10,000 for $7.50; 50,000 for $27.50. Samples on request.

Azalea Prices Way Down

Azaleas have been one of our specialties for many years. This season we are pleased to offer the largest stock we have ever grown, and at lower prices, too. If you have not been getting your Azaleas—Lining-Out or Specimen—from us, we wish you would try ours this time. We aim to please you with Azaleas as well as with our other stock.

What happened last year.

We had "bad luck" with our Azaleas and some other stock last season. During January we had a fairly warm few days followed by a drop in the temperature to 15 degrees below zero (the coldest ever registered for this section). Practically all our Azalea buds were killed, as were our Boxwood and some other plants. We hardly ever have Azalea buds to kill during winter. This time they did, even many of the plants were badly damaged. While we could not sell the plants last season it has given us a nice stock of very nice bushy plants to offer this season if nothing happens to them from now on. We suggest you get your plants in this fall or early winter if you have facilities to take care of them, and you will have them on hand when you want them.

Varieties with an asterisk * are the hose-in-hose or double type.
Each X means one transplanting.
Our 1-yr. field beds XX trans. have been grown in the greenhouse one year and in outside beds one year thus making them really two years old. The 2-yr. in field beds XX trans. are two years from greenhouse and thus three years old.

KURUME AZALEAS

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are also well adapted to forcing—thousands of them being sold for Mother's Day, Easter and Decoration Day. They are comparatively easy to grow and they make such a wonderful display that the demand is continually increasing. Many of the varieties are hardy out of doors as far north as Long Island. They are extremely floriferous, and in season the blossoms completely cover the plants. The colors are of almost every hue and shade except yellow, as you will find below.

NEW U. S. D. A. AZALEAS

A group of new varieties of this wonderful June-blooming hardy evergreen Azalea released by the U. S. Department of Agriculture. Most of these were collected by the Department at the Agricultural College, Imperial University, Komaba, in Tokyo, Japan. They have been tried out by the U. S. Department of Agriculture staff and other interested growers and have been selected as being worthy of introduction in this country. We were one of the original growers selected to propagate these for the trade.

In ordering these Azaleas please use the number following the name, this will insure getting the variety wanted.

Something New and Good

Gable's Hardy Azaleas

These hybrids have been made in the effort to originate a hardier strain of the Japanese type of Azalea in better form and color than have heretofore been available in hardy varieties.

As to hardiness these varieties will average hardier than Azalea Hinodegiri or Amoena and much hardier than the Kurumes. All have lived and flowered in the open field where they have withstood temperatures of twenty below zero and more in the last few winters with only negligible injury to a few. Most of them were quite uninjured.

ELIZABETH GABLE (No. 21G). Rose-pink. Late midseason. Evergreen the year around. Best foliage of any of the evergreen types. Height 5 ft. One two and three year sizes.

HERBERT (No. 47G). Magenta red. Good habit of growth. Height 4 ft. One, two and three year sizes.

LOUISE GABLE (No. 13G). Double, salmon-pink. Midseason. One of the best of the evergreen types. Height 3 ft. One year size only.

Numbers 34G, 38G, 43G, 46G, 49G, 51G, and 54G have not been named nor classified. If you want to get them so as to have a start when they are named we will furnish at same prices as for the above named ones. One, two and three year sizes. Only one year size of No. 43 and No. 46.

Prices of above Gable Azaleas:	**10**	**100**
1 yr. plants XX trans.	**$3.00**	**$25.00**
2 yr. plants XX trans.	**4.50**	**40.00**
3 yr. plants XX trans.	**6.00**	**50.00**

Several of our customers, after seeing them in bloom have asked us to furnish as many varieties as we had of these new Azaleas. We believe you will like most of them too.

MISCELLANEOUS AZALEAS

In the following list of Azaleas you will find many species; they are not classified or separated as to their different species. We are trying to give such descriptions that you may know, or have a general idea what each variety is like.

ARNOLDIANA AZALEAS

In 1914, the late Jackson Dawson, then superintendent of the Arnold Arboretum, at Boston, Mass., created a splendid new type of hardy Azalea by crossing Azalea Kaempferi and Azalea Amoena. Of the seedlings thus produced a considerable number of them were grown at Boston from their infancy until flowering age, when the following ones of unusual beauty and vigor of growth were selected.

ALUMINUM SULPHATE

Azaleas, Rhododendrons, Blueberries, Cornus Florida, Heather, Kalmia and many other plants require an acid soil. Acid-forming organic matter, such as well rotted oak leaves helps to increase acidity. Aluminum sulfate is a good chemical for increasing soil acidity by using ¼ to ½ pound per square yard. Also used for turning hydrangeas blue.

10 lbs., $1.25; 50 lbs., $4.00; 100 lbs., $6.00.

AZALEAS AND CAMELLIAS By H. H. Hume

Interest in Azaleas and Rhododendrons is greatly increasing. Until now, little information on varieties, care and culture of these plants has been available. Mr. Hume accurately and thoroughly describes the varieties best suited for various uses and discusses questions on culture, such as soils, fertilization, planting, propagating, and general care, indoors and out. He has taken special care to describe accurately the several groups and varieties, and his suggestions on the use and culture are very practical. If you are growing Azaleas and Rhododendrons you will find this book much help. While the book is entitled Azaleas and Camellias it applies equally to Rhododendrons. **$1.75.**

KAEMPFERI HYBRID AZALEAS

In these new Kaempferi Hybrids—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years' tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts.

Aunt Mary's Sweet Corn

THE SWEET CORN SUPREME

This is the most wonderful Sweet Corn we have ever grown and one grower describes it as "the best sweet corn in the world."

Is of the most delicious flavor and keeps a long time before becoming too hard to use. In fact, usually requires artifical heat to cure it for seed purposes.

Aunt Mary's corn, by its excellent quality, sweetness, and flavor makes a stronger appeal to the corn-loving public than most any other variety and that appeal continues long after you are tired of other sweet corns.

Price liberal size packets, 35c each, 3 for $1.00, postpaid.

If after growing this wonderful sweet corn you are not entirely satisfied we will refund every cent you paid us for it.

BOXWOOD

Boxwood has been one of our specialties for a good many years. We have a good supply in the small sizes this season, but the larger sizes of Suffruticosa were completely killed during the winter of 1941-1942. The temperature dropped to the lowest on record for this section (15 below zero). This after a warm spell with sap up in the plants. They could not stand it. We offer the sizes below and will have the larger sizes to offer as soon as we can grow them.

	Each	10	100	1000
BUXUS ARBORESCENS. A tree form of Sempervirens. Open, loose habit of growth and a much faster growing variety.				
* 3 to 6 in. trans.		$1.00	$7.50	
BUXUS HANDSWORTHI. Upright in growth, having large dark-green leaves. Used for formal effects, and may be trimmed readily. Unusual.				
* 3 to 4 in. trans.		$0.85	$6.00	
BUXUS JAPONICA. A hardy, tall growing type with light green leaves which turn a yellowish brown in winter.				
* 4 to 6 in. trans.		$1.00	$7.50	
* 6 to 8 in. trans.		1.25	10.00	
18 to 24 in. B&B	$1.25	11.00	100.00	
2 to 3 ft. B&B	1.50	13.50	125.00	
BUXUS KOREANA. A very hardy type of Box growing about 2 feet tall, light green foliage turning yellowish-brown in winter.				
* 3 to 4 in. trans.		$0.90	$6.50	
* 4 to 6 in. trans.		1.00	8.50	
BUXUS MICROPHYLLA VAR. COMPACTA. New, rare, extremely dwarf and hardy Boxwood. Has stood all weather conditions in the Pocono Mountains where temperature drops below zero. Very dwarf and slow growing. Ideal for edging, rockeries, Knott gardens, and all other uses where plants are required to remain dwarf. Original plant after twenty-eight years is now about 12 inches high and 21 inches wide. A rare gem. Stock limited.				
* 2 in. pot plants heavy		$3.00	$25.00	
* 2 in. pot plants 2 yr.		1.75	15.00	

	Each	10	100	1000
BUXUS SEMPERVIRENS. An old-time favorite in gardens and much used for hedges as well as for specimen plants. This is called the Bush Box but it is a faster growing type than Suffruticosa Box. If you want the real dwarf growing kind you should get Suffruticosa. There are many wonderful hedges of Box in the Atlantic States.

Boost Your Profits with

Daphne Cneorum

A Hardy Plant Novelty

Our Sure-to-Bloom Strain

When in bloom its fragrance sells it. Its small size and low price permits the customer to take it along. An ideal cash and carry item. Our improved strain blooms in May and again in August until frost.

Plants are solid, compact and symmetrical. The profusion of soft pink flowers attract favorable attention and the strong sweet fragrance clinches the sale.

Requires a cool house, a little room and only eight weeks to force into full bloom. Can be shipped safely throughout the winter months by freight, direct from growers, without damage.

Make More Profit

SELL YOUR ROSES, PERENNIALS, SHRUBS, VINES AND FRUIT TREES STARTED AND GROWING IN

Cloverset Flower Pots

THEY ARE CHEAP IN PRICE. They are so cheap that they can be given away with the plant which insures the safe arrival, in first class condition, of the plant grown in them, to its final destination.

THEY MAKE THE NURSERY BUSINESS AN ALL SUMMER BUSINESS. They permit the nurseryman to extend his selling season from early Spring through the Summer and Fall, and to plant Roses and other nursery stock grown in them even in the hottest Summer weather without the least sign of wilt of either the foliage or the blooms.

YOU CAN SELL YOUR PLANTS IN BLOOM. By growing your stock in our pots you may sell it in full foliage and in **Full Bloom,** when it will command the best price and most profit.

HOLLY (*Ilex*)

We consider the Holly one of the very best ornamental trees or shrubs. Nothing is prettier than one of our American Hollies with great clusters of bright red berries and dark green leaves shining above the snow in winter. The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell, whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell. We believe there is money in growing them and will increase our stocks as fast as we can. Notice our very large selection of varieties.

ILEX CRENATA CONVEXA (Buxifolia or Bullata) (Box-Leaf Japanese Holly). A slow growing form of the above with glossy box-like leaves. Good for rock gardens and other dwarf purposes. Very attractive.				
* 4 to 6 in. trans.		$1.00	$7.50	
* 6 to 8 in. trans.		1.25	10.00	
ILEX CRENATA HELLERI. Very compact low growing—foliage is so thick and dense you can hardly put your finger through it—very small leaves. We consider this to be one of the best novelties recently introduced.				
* 2 in. pot plants		$1.00	$7.50	
ILEX CRENATA LATIFOLIA. Leaves a little wider than the type and of stronger growth.				
* 8 to 10 in. trans.		$1.25	$10.00	
ILEX CRENATA MICROPHYLLA. A small leaved form of Japanese Holly.				
* 4 to 6 in. trans.		$1.00	$7.50	
ILEX CRENATA ROTUNDIFOLIA (Round Leaf Jap. Holly). Compact evergreen shrub with shiny green foliage and black berries. An outstanding variety of Crenata.

ILEX MONTICOLA (Mountain Winterberry). Deciduous small tree, with spreading branches, bright green leaves, and scarlet berries in autumn.				
18 to 24 in.	$0.35	$2.50		
ILEX MYRTIFOLIA. A strain selected for hardiness and berry bearing qualities. Introduced in 1935. We recommend it for trial. The leaves are long and narrow; berries colored red by October 15th and stay on plant all winter.				
3 in. pot plants		$2.50	$20.00	
ILEX OPACA (American Holly). An evergreen tree to 40 feet tall, with spreading branches forming a narrow pyramidal head; leaves 2 to 4 inches long, with narrow spiny teeth, dull green above, yellowish green beneath; fruit red, globose, about ¼ in. across. Flowers in May and June; fruits late in autumn through winter. Hardy in Massachusetts southward. Much used for Christmas decoration.

ILEX OPACA CROONENBURG. The Wonderful New Holly. In a mature plant the leaves are 2½ to 3¼ inches long and 2 to 2½ inches wide, having about 7 to 9 spines of a very dark green, not having the usual yellowish tint found in most familiar American Hollies. It bears berries from cuttings almost continuously, as three year old plants usually are well loaded with berries. This is a very special variety. Prices still high on account of scarcity due to demand for it.				
3 in. pot plants	$1.00	$8.50	$75.00	
2 to 3 ft. B&B	4.50			
ILEX OPACA EAST PALATKA. A cross of Dahoon and Opaca. Its evergreen leaves are practically spineless. The deep red berries are bourne in heavy clusters, ripen a month or so before Opaca and persist on the tree until spring.				
3 in. pot plants		$2.50	$22.50	
18 to 24 in. B&B	$0.65	5.50	50.00	
ILEX OPACA FEMINA. A berry bearing form of the American Holly. Cuttings selected from good berry-bearing trees.

LILACS (*Syringa*)

We are just a little proud of our collection of Lilacs this season. Is seems from the sales we are having that Lilacs are again coming into popularity. We suggest ordering early as some varieties are only in small supply as you will see by our offerings.

Descriptive booklet will be sent on request.

Stellata Waterlily (Waterlily Magnolia)				
This new Magnolia was named "Waterlily" on account of its resemblance to a waterlily and its sweet fragrance. Supposed to be a cross between Soulangeana and Stellata. Bushy and twiggy somewhat like Stellata but growth more like Soulangeana. Bears a great profusion of flowers a little later than Stellata. Flowers are well placed on ends of branchlets measuring from 4½ to 6 inches across, consisting of three to five layers of petals averaging from twenty to thirty two to a flower. Flowers are blush-pink, buds flesh-pink, fading to white. Has proven very popular whenever seen.

RHODODENDRONS

Most everbody agrees that Rhododendrons are among the most showy of all flowering plants, and most everbody would also like to grow some but the price has always been a great drawback to quantity planting. We believe you will find our prices low enough so that you can resell them at a fair price and still make a good profit. This collection is among the very best of the hardy hybrid varieties; all good growing and good flowering kinds. Push them a little and note how your sales increase.

ALBUM ELEGANS. A rapid growing tall variety recommended for backgrounds. Buds and flowers are flush fading to white.
12 to 15 in. B&B $1.25 $11.00 $100.00
15 to 18 in. B&B 1.50 13.50
24 to 30 in. B&B $2.50 $22.50

AMERICA. An excellent deep red of open spreading habit. Very best red color.
12 to 15 in. B&B $1.25 $11.00 $100.00

CATAWBIENSE ALBUM. A pure white of good compact habit. Produces an abundance of buds.
12 to 15 in. B&B $1.25 $11.00 $100.00
15 to 18 in. B&B 1.50 13.50

CATAWBIENSE GRANDIFLORUM. A rosy-lilac hybrid recommended for mass planting as it buds heavily; is hardy and is particularly resistant to disease.
10 to 12 in. B&B $1.00 $9.00
12 to 15 in. B&B 1.25 11.00

DR. DRESSELHUYS. Glittering crimson flowers and trusses of unusual size. Compact grower and one of the best reds.
12 to 15 in. B&B $1.25 $11.00
15 to 18 in. B&B 1.50 13.50

ENGLISH ROSEUM ELEGANS. The finest clear pink color and compact habit of Roseum Elegans.
12 to 15 in. B&B $1.25 $11.00 $100.00
15 to 18 in. B&B 1.50 13.50

EVERESTIANUM. Large trusses of frilled flowers delicately shaded with lilac-pink and lightly spotted greenish-black. Good foliage; compact grower.
12 to 15 in. B&B $1.25 $11.00

IGNATIUS SARGENT. A rapid, vigorous growing light red.
12 to 15 in. B&B $1.25 $11.00
15 to 18 in. B&B 1.50 13.50

MRS. C. S. SARGENT. A good light red or deep pink variety of compact bushy habit. Splendid outdoor hybrid for mass plantings as it is among the hardiest.
10 to 12 in. B&B $1.00 $9.00

PARSONS' GRANDIFLORUM. A good hardy solferino red with compact clustered flowers.
12 to 15 in. B&B $1.25 $11.00 $100.00

PRESIDENT LINCOLN. An easily forced tall growing lavender variety. Among the hardiest.
12 to 15 in. B&B $1.25 $11.00 $100.00
15 to 18 in. B&B 1.50 13.50

PURPUREUM ELEGANS. Bushy well shaped plants producing an abundance of purple flowers. Hardy and a heavy budder.
12 to 15 in. B&B $1.25 $11.00 $100.00
15 to 18 in. B&B 1.50 13.50

ROSEUM ELEGANS. In habit, this is probably the best of all hybrids as most every plant is a natural heavily budded compact globe when full grown. Its lavender-pink flowers are easily forced, and it is one of the hardiest ones.
12 to 15 in. B&B $1.25 $11.00
15 to 18 in. B&B 1.50 13.50

Taxus (Yew)

It is only in the past few years that nurserymen in the United States have begun to really appreciate and grow the Yew. In England there are Yews more than a hundred years old, but unfortunately the English Yew (Taxus Baccata) is not reliably hardy in the north and many do not realize that the Japanese and many forms of Media are perfectly hardy in and around Boston, and the Japanese even in northern New England.

They are not so particular as to character of soil excepting it should not be too wet, but they do appreciate plenty of good plant food. They are immune to many plant diseases and insects so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well.

We honestly believe you will do well to plant and grow on some of these Yews.

TAXUS BACCATA (English Yew). Widely planted in English churchyards. A good ornament. Hardy as far north as New York City. Upright, dark green foliage. Very good for the South and where it is hardy.

This nursery was started just 36 years ago by the present owner. We have made many mistakes but we believe our customers will agree that we have always tried to give a dollar in value for every dollar received. This will be our aim as long as The Tingle Nursery Co. stay in business. If you have any reason for complaint, tell us.

TAXUS BACCATA HIBERNICA (Irish Yew). A strictly fastigiate form, with stout crowded upright branches and branchlets; leaves radially arranged around the branches, dark glossy green, more obtuse than in the type. One of the most desirable evergreens of columnar habit for formal gardens. Do not recommend planting north of Philadelphia, although it is hardy on Long Island.

TAXUS CANADENSIS (Canadian Yew). Low shrub usually diffuse and straggling but occasionally ascending and up to 6 feet tall. The hardiest of the Yews, but less handsome than the other species, one of the chief drawbacks being the reddish tinge the foliage assumes in winter.				
* 4 to 6 in. trans.		$1.25	$10.00	
TAXUS CANADENSIS STRICTA (Dwarf Hedge Yew). The most satisfactory evergreen for dwarf edging hedges in severe New England climate. The best substitute for Dwarf Boxwood. Hardy, really dwarf, fine texture, dark, easily grown, shears perfectly, thoroughly tested for past fifteen years. Also excellent for use in general plantings of dwarf evergreens. Always a short supply; sell out early.

TAXUS CHINENSIS. A comparatively new Yew from China. A good grower, rather slow. Foliage very attractive and fresh looking, medium green in color. Supply is limited.				
* 4 to 6 in. trans.		$2.50	$20.00	
TAXUS CUSPIDATA (Japanese Yew). For any and every purpose in which evergreens are required the Japanese Yew can be recommended. Perfectly hardy in New England and Ontario, immune from most diseases and pests. Accommodating to an extraordinary degree, withstanding shade of full sunshine, dark green at all seasons of the year. Small wonder this plant has been acclaimed "Japan's greatest gift to the gardens of America." Under this heading we are offering the **spreading** or **wide growing** type which grows as broad or broader than tall.

TAXUS CUSPIDATA CAPITATA (Upright or Tree-Form Japanese Yew). This is a selected tree-form of Japanese Yew, otherwise same description as for Taxus Cuspidata.				
* 6 to 8 in. trans.		$1.25	$10.00	
* 8 to 10 in. trans.		1.75	15.00	

	Each	10	100	1000
TAXUS CUSPIDATA DENSA (Compact Dwarf Japanese Yew). Low form making a dense, sometimes hemispherical bush with ascending branchlets. It is one of the most handsome of all dwarf evergreens.				
* 4 to 6 in. trans.		$1.75	$15.00	
TAXUS CUSPIDATA JEFFREY'S PYRAMIDAL. A pyramidal growing type with dark foliage. Well worth growing for a tall medium narrow form.

TAXUS CUSPIDATA NANA ERECTA. Same type foliage as above but grows more erect.				
* 4 to 6 in. trans.		$1.75	$15.00	
TAXUS CUSPIDATA NANA FEMINA. A heavy berry-bearing type of the dwarf Yew with good foliage and good growing habit. Your customers will want this when they see it in fruit. Faster growing and not as heavy foliage as Nana.				
* 4 to 6 in. trans.		$1.50	$12.50	
* 6 to 8 in. trans.		1.75	15.00	
* 8 to 10 in. trans.		2.00	17.50	
TAXUS CUSPIDATA NANA GRANDIFLORA. Practically identical with Taxus Cuspidata Nana but grows much larger and two or three times faster. Particularly fine.				
* 4 to 6 in. trans.		$1.50	$12.50	
TAXUS CUSPIDATA NANA PYRAMIDALIS HILLI. An erect growing type of the dwarf Yew, medium fast grower and useful in many plantings.				
* 4 to 6 in. trans.		$1.25	$10.00	
TAXUS MEDIA (Intermedia). This Yew is a hybrid of Baccata and Cuspidata, having a more vigorous habit than Baccata and is more irregular in outline and has darker green foliage than Cuspidata. Could be described as a quick growing Cuspidata Nana with a similar spreading, irregular habit.				
* 4 to 6 in. trans.		$1.25	$10.00	
* 6 to 8 in. trans.		1.50	12.50	
TAXUS MEDIA ANDERSONI. A wide vase-shaped form of Media. Excellent for specimen plants and hedges.				
* 4 to 6 in. trans.		$1.00	$7.50	$70.00
* 6 to 8 in. trans.		1.25	10.00	90.00

TAXUS MEDIA HUNNEWELLIANA. A natural cross between the Japanese and Canadian Yews. An intermediate between the parents in habit of growth, in color of foliage and in general appearance. It is perfectly hardy and of elegant form but in the winter the clear green of its foliage is masked by a yellowish-bronze pigment.

* 8 to 10 in. trans.		$2.25	$20.00

TAXUS MEDIA KALLAY. A newer selection from Ohio. Good grower and of very dark color.

* 4 to 6 in. trans.		$1.25	$10.00

TAXUS MEDIA NEWPORT. This is the narrowest growing Yew we have ever seen. Foliage a good dark green, good grower. This plant is adaptable to places where most other plants would be too wide. Not more than 2 large ones to a customer.

* 4 to 6 in. trans.		$2.50	$20.00
30 to 36 in. B&B	$4.00		

TAXUS MEDIA OVATA. Broad, upright in habit, large dark leaf and is unusually attractive throughout the year, especially in fall. Very heavy producer of red fruit.

* 4 to 6 in. trans.		$1.75	$15.00

TAXUS MEDIA TAUNTON. A low growing, heavy, dark green foliage Yew. This is an unusual type in that the branches start out horizontally and then make an upright growth. We found this growing in a nursery in Massachusetts and consider it distinct from all other Yews we are growing.

* 4 to 6 in. trans.		$2.50	$20.00

TAXUS THAYERI. A variety of regular Cuspidata or spreading type. Good grower and very desirable.

* 4 to 6 in. trans.		$1.25	$10.00

TAXUS MEDIA VERMEULEN. Very compact and dense upright grower. Broad base and narrow top. Beautiful pyramid heavily interspersed with red berries.

* 6 to 8 in. trans.		$1.25	$10.00
* 8 to 10 in. trans.		1.50	12.50
*10 to 12 in. trans.		1.75	15.00

18 to 24 in. B&B	$1.75	15.00	
24 to 30 in. B&B	2.25	20.00	

TAXUS MEDIA WARDI. A selection of the Intermedia types growing in a low spreading very compact plant. Similar to the regular Intermedia variety but foliage a little finer.

* 4 to 6 in. trans.		$1.25	$10.00
* 6 to 8 in. trans.		1.50	12.50

TAXUS MEDIA WELLESLEYANA. Another form of Media making a dense, broad column; foliage a fine dark lustrous color.This is a very good one.

* 4 to 6 in. trans.		$1.25	$10.00
* 6 to 8 in. trans.		1.50	12.50
* 8 to 10 in. trans.		1.75	15.00

MORE HATFIELD YEWS

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. We are giving a brief description and will appreciate suggestions for names for them.

HATFIELD No. 6. Somewhat like No. 8 in growth but twigs are not as heavy; leaves narrow. Very graceful.

* 4 to 6 in. trans.		$1.25	$10.00
12 to 15 in. B&B	$1.25	11.00	

HATFIELD No. 7. Bright glossy green, heavy foliage; long needles. Semi-erect full grower.

* 4 to 6 in. trans.		$1.25	$10.00
* 6 to 8 in. trans.		1.50	12.50
* 8 to 10 in. trans.		1.75	15.00
*10 to 12 in. trans.		2.00	17.50
12 to 15 in. B&B	$1.25	11.00	

HATFIELD No. 8. Slow growing; very compact. Foliage resembles Cuspidata Nana.

* 4 to 6 in. trans.		$1.25	$10.00
* 6 to 8 in. trans.		1.50	12.50
* 8 to 10 in. trans.		1.75	15.00
*10 to 12 in. trans.		2.00	17.50
12 to 15 in. B&B	$1.25	11.00	
15 to 18 in. B&B	1.50	13.50	

HATFIELD No. 18. Similar in growth to Taxus Cuspidata; a shade lighter color foliage, making it wonderfully attractive. Probably the most rapid grower of all the low types of Taxus. However, it can be kept compact with a little shearing. If you want a good, quick grower, yet one having the good qualities of Taxus Cuspidata we recommend this one.

* 6 to 8 in. trans.		$1.50	$12.50
* 8 to 10 in. trans.		1.75	15.00

CYPRESS LATH SHADE

We have had so many inquiries as to where Lath Shades for covering small lining-out stock, seedlings, etc., could be secured and the price of same that we have decided to offer it to the trade. This is made with Cypress laths 4 feet long, 1½ inches wide and spaced about the width of a lath apart, woven together with three double strands of galvanized wire, thus giving half shade. Made in forty feet lengths at **11 cents per running foot.**

TOUGH PAPER LABELS

We can furnish a tough paper label slotted in one end, one half inch wide and 7¼ inches long at $1.00 per thousand, $7.50 for 10,000, $27.50 for 50,000. Printed to order on one side, 1,000 for $1.75, 10,000 for $11.50, 50,000 for $43.50.

EMBOSSED ZINC LABELS

We will make, from your list of varieties, Embossed Zinc Labels, one-half inch wide at five cents each, in any quantity desired. These labels will permanently identify your plants.

Perennials

Hardy Amaryllis—Magic Lily

This bulb, also known as Lycoris Squamigera, is a native of Japan and one of the most interesting members of the Amaryllis family. It produces attractive green foliage in the spring which disappears in midsummer. About a month later, as if by magic, the flower stock appears, bearing a cluster of 7 to 12 fragrant lily-shaped flowers of delicate lilac-pink, shaded blue. Perfectly hardy in the northern states and may be left in the ground year after year unmolested. **10 for $5.00, 100 for $40.00.**

Root Cuttings
Better and Quicker
WITH
THE PLANT HORMONE POWDER

ROOTONE
PATENTS PENDING

Just Dust and Plant—No Solutions
No Waiting—No Watching

We recommend ROOTONE because we have found it of much help to us in rooting cuttings both in saving of time and in increased roots to the cutting. We use it on all the cuttings we put in. We know it pays us both in better roots and time saved in cutting beds.

ROOTONE Is Best For Cuttings Because—

LOW COST—Can treat 30 to 50 cuttings for one cent.

SIMPLICITY—No skill is needed to apply ROOTONE. No measurements, no vials, no elaborate charts to follow, or clock-watching are needed. Just dip in dry powder and plant.

SPEED OF ROOTING—The time of rooting of cuttings is cut by ROOTONE treatment to anywhere from one-half to one-tenth of the time required without treatment.

SURENESS OF ROOTING—Cuttings that root with difficulty, such as holly, magnolia, arborvitae, lilac and dogwood will respond in greatly increased percentages and in much shorter time.

ROOTONE is a general stimulant for plants, supplying extra hormone at times when the plant is able to use more than Nature provides.

ROOTONE treatment hastens and improves the rooting of cuttings; increases germination from seeds and bulbs, resulting in earlier flowering.

2 oz. Jar $1.00—1 lb. Can $5.00, Postpaid.

A two ounce jar will treat up to 3,000 cuttings; one pound will treat up to 30,000 cuttings.

No solution or soaking treatment is necessary. Just dip the base of the cutting in the dry powder and set in the propagating bed or cold frame.

TRANSPLANTONE

The Vitamin Hormone Stimulant For Plants

When seedlings, plants, shrubs or trees are transplanted, roots are usually damaged to some extent and growth is temporarily checked. The beneficial effect of Vitamin B-1 and other parts of the Viatmin B complex on roots has been established in research work by leading plant physiologists.

These chemicals and root forming hormones are combined in TRANSPLANTONE to enable transplants to reestablish themselves more readily.

Thus a treatment of TRANSPLANTONE will stimulate old roots, hasten the formation of new ones and reduce the risk of interrupted growth or loss of plants.

3 oz. Can $1.00—1 lb. Can $4.00, Postpaid.

WHAT ABOUT VITAMIN B1

Vitamin B-1 is necessary for root growth. Plants that lack this vitamin grow better when TRANSPLANTONE is fed to them. For plants that have enough B-1, TRANSPLANTONE is effective because it contains other important stimulating vitamins and chemicals. TRANSPLANTONE is a balanced vitamin hormone stimulant for plants in general.

Manure Is Scarce

both animal and chemical.

Make Your Own Fertilizer

out of field and garden rubbish

by mixing it with

It's EASY—anybody can do it. It's **CHEAP**—every pound of *ADCO* **makes forty pounds of clean manure. It's GOOD**—it produces a true organic manure, (totally different from ordinary compost). largely composed of **available humus,** which enriches the soil and releases the plant foods.

Remember, it is **available humus** which makes a soil **rich**—and there is no such humus in chemical fertilizers.

25 lbs of *ADCO* makes half a ton of valuable plant food.

Mix *ADCO* with leaves, weeds, vines, clippings, cuttings, straw, cornstalks, etc., and turn them into rich plant food.

Field and garden wastes contain every essential to plant life—not only the ordinary foods, but vitamins and other rare, mysterious substances, many of them as yet unknown even to chemists. Nothing else can so completely supply every need of growing things. All this refuse requires is mixture with *ADCO.*

By the *ADCO* process these wastes are turned into rich plant food. It's easy—anybody can do it—and inexpensive, for even one 25-lb bag of *ADCO* will give you half a ton of excellent manure. Larger quantities are even cheaper. No apparatus is required.

Prices of *ADCO* f.o.b. Pittsville or near Philadelphia, Pa.

25 lb. bag $ 2.50. (Will make half a ton).
100 lb. bag $ 8.00. (Will make two tons).
150 lb. bag $10.50. (Will make three tons).

Full instructions "how to use" sent with each shipment.

Bargains In Azaleas

If you can use a quantity of Azaleas and are not particular as to a certain named variety we will make you a very attractive price on large quantities. We have a large quantity that will need transplanting this season but on account of labor scarcity will not be able to move all of them. All are named kinds with a wide range of sizes and varieties. **Bring your truck and take back a load.**

Business Information

THESE PRICES are in effect for Spring 1943 season.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists and dealers.

PACKING. All goods are packed in boxes or bales for which we charge sufficient to cover cost of material used.

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.

TERMS: We offer the usual terms; net 30 days from date of shipment to those of known responsibility but must have satisfactory business references from others or remittance must accompany order. Those desiring stock shipped by express C. O. D. will please remit ¼ the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP. Whether by freight or express and give railroad delivery if by freight. This may help in getting the stock to you with the least delay possible.

TIME OF SHIPMENT. We ship every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping the different plants but if you want them out-of-season and are willing to take the risk of good delivery we will pack with the utmost care and get them off to you at most any time you want them.

Plan to Visit Our Nursery

We will certainly be glad to have you come and see our stock for yourself.— We have many items in too small lots to list. Among them there may be some that you are especially desirous of securing. If you are not familiar with the varieties we are offering we will send you a descriptive list of most of the stock offered herein, if you will ask for it.

We are located on the Eastern Shore of Maryland, about 100 miles directly south of Wilmington, Delaware. See the road map on fourth cover page.

TOUGH PAPER LABELS

We can furnish a tough paper label slotted in one end at $1.00 per thousand; $7.50 per 10,000. Prices on printing on receipt of your list of requirements.

WIRED TREE LABELS

It may be well for you to secure your wood wired labels as soon as possible. Our manufacturer tells us they cannot furnish any more painted wire labels. We still can furnish a few 3½ inch wired tree labels, unpainted at $3.00 per thousand until present stock is gone.

Natural Manures

The Federal Government has restricted the amount of chemical fertilizers we can use during the war period. At first this may seem like a further hardship but it will not affect us but a very little as we have been useing natural manures almost exclusively in our nursery work and have found them satisfactory and economical considering results obtained. We are offering the following manures not only as a patriotic duty but believing you will be well pleased with the results obtained.

Cow Manure Brick

MAKES LIQUID COW MANURE

Manure Brick is made of rich, rotted cow manure—compressed and kiln dried, nothing else is added, nothing except excess moisture is taken away. Black and odorless. Simply soak brick in 16 quart pail of water, or one-fourth of the brick in a gallon of water, and you have a rich, quick acting liquid manure. Ideal for wetting potted plants, porch and window boxes, roses, plant beds and lawns.

Bricks weigh approximately one pound each and are packed in individual boxes. 10 or more at 20, cents each.

Mulchnur

THE GENERAL PURPOSE ORGANIC FERTILIZER

For all lawn and garden jobs. Won't burn, holds moisture and adds Nitrogen, Phosphoric Acid and Potash to the soil as well as an abundance of Humus. The Tobacco also acts as an insecticide to help keep worms and bugs away.

"Mulchnur" is a dry, fine ground combination of peat moss, tobacco dust, hen and cow manure, that is easy to apply, either broadcast or through a fertilizer distributor.

"Mulchnur" is good for all crops where soil is deficient in plant food, and most soils are.

In ordinary fertile soil 100 lbs. to 1000 square feet is sufficient but on poorer soils up to 100 lbs to 250 square feet will be found very profitable.

Price, 50 pound bag about 2½ bushels for $1.50.

Pulverized Cow Manure

AN EXCELLENT SOIL CONDITIONER

Bone dry, moisture under five percent. Economical to use. Will not burn plants. A general all-purpose manure.

Price, 50 pound bags $1.00 each.

Hen-Peat Nure

STRONGEST OF ALL FARM MANURES

A dry pulverized manure than can be applied broadcast or through a fertilizer distributor. Mulches your ground, keeps roots warm, adds plant food. A moisture holding soil builder. A 100 lb bag will top dress 1500 to 2000 square feet of lawn. For making new lawns use 100 lbs. to 500 square feet and work it well into the soil before sowing seed. A quick acting plant food.

Price, 50 pound bag for $1.25.

Tobacco Mulch

Ground Tobacco Stems for mulching beds and borders.

Price, 50 pound bag $1.50 each.

PAPER TREE LABELS

Due to scarcity of painted wired wood labels many nurseries are now useing paper labels. We are making them from a good quality, tough paper one half inch wide and 7¼ inches long and will furnish at $1.00 per thousand, $7.50 for 10,000, $27.50 for 50,000. Printed with your name and address on one side, 1,000 for $1.75, 10,000 for $11.50, 50,000 for $43.50. If you want variety names printed on them send list of varieties stating how many you want of each variety and we will quote you prices for same.

TYPEWRITER PAPER TREE LABELS

If you want to typewrite the variety names on the labels we are making them one half inch wide, 7 inches long, 12 labels to a sheet, cut so they will easily tear apart. They are convenient, easy to use and low in price. Price, 1,000 for $1.00, 10,000 for $7.50, 50,000 for $27.50.

WIRED WOOD TREE LABELS

We have 50,000 unpainted, wired, wood Tree Labels 3½ inches long which we offer all or any part of at $2.60 per thousand. This is probably the last wired labels we will be able to furnish until after the war on account of being unable to get the wire.

NURSERY SHIPPING TAGS

Made from good quality, tough, waterproof stock. Size 3⅛X6¼ inches. The standard size tag used by most nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices:

500	1,000	2,000	5,000	10,000
$3.50	$5.50	$10.50	$24.50	$45.00

If you want a colored tag, add $1.00 per thousand to the above prices. For printing in 2 colors add $1.50 per 1000.

EMBOSSED ZINC LABELS

We will make from your list of varieties, Embossed Zinc Labels, one-half inch wide at five cents each in any quantity desired. These labels will permanently identify your plants as they will last indefinitely.

CYPRESS WOVEN LATH SHADES

We have on hand a few thousand feet Cypress Lath Shade made with cypress laths 4 feet long, 1½ inches wide and spaced about the width of a lath apart, woven together with three double strands of galvanized wire, thus giving half shade. This is ideal for covering small lining-out stock, seedlings, etc. Made in forty feet lengths at 11 cents per running foot. This is probably the last we will have until after the war on account unable to get the wire.

TRANSPLANTONE HELPS SAVE PLANTS

If you have been having trouble in transplanting some of the harder to get to live plants we suggest you try useing "Transplantone" The Vitamin Hormone Stimulant For Plants. We understand it has given wonderful results even on Canadian Hemlock collected seedlings. We all know how difficult it is to get a fair percentage of them to live. A three oz. package will treat several thousand plants. All you do is dip the cuttings in water where the Transplantone is mixed. 3 oz. can $1.00, 1 lb. can $4.00, postpaid.

NURSERY DIGGING SPADES

This is the spade we use here. Polished blade of solid steel, 12 inches long, 7¼ inches wide tapering down to 6 inches. Weight 7 lbs. Metal reinforced handles all way up. Price $4.50 each, as long as they last.
